Dear Mr. Secretary-General,

I am pleased to confirm that **Institute of Geological Sciences named after K.I. Satpaev** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):  
Operate responsibly by embedding the Ten Principles of the UN Global Compact into strategies and operations  
Take bold, innovative action to achieve UN initiatives such as Sustainable Development Goals and the Paris Agreement  
Share their commitments and progress publicly through an annual Communication on Progress  
Advance the case for responsible business practices through advocacy and engagement with peers, partners, employees, clients, consumers, and the public at large

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

**Askar Syzdykov,**  
**Director at Institute of Geological Sciences named after K.I. Satpaev**
