Dear Mr. Secretary-General,

I am pleased to confirm that **Suomen ammattiliittojen solidaarisuuskeskus SASK ry** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): SASK has a long history of relevant expertise on the implementation of human rights in the world of work and realization of ILO fundamental principles and rights at work. SASK vast global networks within the global trade union movement from global to local level creates a unique opportunity for grass root level stakeholder engagement. SASK can assist private sector actors in implementing partnerships on corporate sustainability and engagement with workers in the work place level. SASK will support UN Global Compact business participants as they implement and report on their sustainability efforts and will engage with Global Compact Local Networks.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Juska Kivioja,
Executive Director at Suomen ammattiliittojen solidaarisuuskeskus SASK ry
