Dear Mr. Secretary-General,

I am pleased to confirm that **Global Impact Coalition** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): We pledge to uphold the ten principles of the United Nations Global Compact (UNGC), with a focus on the three environmental principles (7, 8, and 9), which align with our mission of advancing sustainability in the chemical value chain. We are committed to fostering awareness, education, and engagement among our members and stakeholders. Through collective action, we help companies reduce carbon emissions and promote circularity. We will also contribute to UN Global Compact events, such as New York Climate Week, providing thought leadership and outreach. Additionally, we will encourage our members to join the UNGC and integrate its principles into their operations. Further, we will support learning opportunities, promote partnerships on key sustainability goals, advocate for responsible business practices, contribute expertise to UNGC initiatives, and assist in developing a Global Compact Local Network.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Charlie Tan,
CEO at Global Impact Coalition
