Dear Mr. Secretary-General,

I am pleased to confirm that **ANZA ENTREPRENEUR** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): Our organization is committed to aligning our strategies and operations with the Ten Principles of the UN Global Compact in the areas of human rights, labour, environment, and anti-corruption. Specifically, we pledge to: Embed the Ten Principles into our internal policies and decision-making processes, ensuring they guide our daily operations and long-term strategies. Submit an annual Communication on Progress (CoP) to transparently report our efforts and progress in implementing the UN Global Compact principles. Actively participate in local Global Compact networks, sharing best practices and learning from other members to strengthen collective impact. Support and promote the Sustainable Development Goals (SDGs) through our business model, partnerships, and community engagement initiatives. Engage in UN Global Compact events and learning platforms to continuously improve our sustainability practices and contribute meaningfully to the global movement.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Joshua Elias,
Managing Director at ANZA ENTREPRENEUR
