Dear Mr. Secretary-General,

I am pleased to confirm that **Association of Securities Market Participants** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):
The ASMP: • conducts research, analysis, and evaluation of the securities market and makes recommendations on these issues to ASMP members; • assists in establishing and developing cooperation between ASMP members and international and foreign exchanges; • organizes and conducts informational, advertising, consulting, educational, outreach, and other activities aimed at achieving the ASMP goals; • participates, together with ASMP members specialists and representatives of government authorities in the development of regulatory acts and other documents governing the securities market in the Republic of Belarus; • studies and summarizes global experience in the development and operation of the securities market.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Andrei Aukhimenia,
