Dear Mr. Secretary-General,

I am pleased to confirm that **Global ESG Partnership** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

Our activities directly contribute to the mission of the UN Global Compact by promoting responsible business, environmental stewardship, transparency, and high governance standards across the private sector. We plan to expand our involvement by strengthening ESG education for companies, supporting climate-related disclosures, and accelerating the adoption of sustainable finance instruments such as green and social bonds. We also aim to advance regional ESG taxonomies, improve corporate reporting quality, and develop practical tools that help businesses implement the Ten Principles in their operations.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Aidar Kazybayev,
Founder at Global ESG Partnership
