H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary-General,

I am pleased to confirm that **BEIJING ZEST BRIDGE MEDICAL TECHNOLOGY CO LTD.** supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. **BEIJING ZEST BRIDGE MEDICAL TECHNOLOGY CO LTD.** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Due to the staff responsible for handling the membership work of UN Global Compact organization taking leave from Oct. to Dec. 23 2025, She did not participate in or handle company affairs during the leave period, and the relevant work of UN Global Compact organization was not handed over to other colleagues, resulting in the neglect of emails sent by UN Global Compact organization, the failure to respond to emails from UN Global Compact organization in a timely manner, the failure to upload the Corporate Sustainability Report (COP) to UN Global Compact organization's official website in a timely manner, leading to the cancellation of the company's Global Compact membership qualification. After learning about this incident, the top management of the company attached great

importance to it and assigned Alice Cui to be responsible for contacting the Global Compact organization and striving to reapply for the restoration of the company's membership. They also designated another colleague. At the same time, it is required that the company's management actively implement the ten principles of the Global Compact within the company, ensuring that the ten principles of the Global Compact are fully implemented in their work. It is decided to summarize and review the achievement of the goals of the ten principles of the Global Compact implemented in the company at the year-end summary meeting, and form a COP report to report the achievement of the goals to the Global Compact organization. We are reapplying for the restoration of our membership in the United Nations Global Compact organization. We promise to actively implement the ten principles of the Global Compact within our company, incorporating environmental protection, respect for human rights, employee health and safety, and anti-corruption into daily management, and continuously improving management performance.

Sincerely yours,

**Xia Duan,
President at BEIJING ZEST BRIDGE MEDICAL TECHNOLOGY CO LTD.**
