Dear Mr. Secretary-General,

I am pleased to confirm that **Oxfam Kenya** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

Oxfam's work is split into humanitarian and development pillars; these two pillars handle humanitarian response and long-term policy, development, and influencing work. Under the development pillar, there is a component of work under business and human rights; it focuses on addressing business risks and human rights-related challenges within the business sector by working with the businesses to advance human rights, de-risk supply chains, and encourage inclusive and sustainable businesses. This aligns with the SDGs and work within the UNGC that focuses on businesses. Under this area of work, Oxfam Kenya works with businesses to hold roundtables, generate pieces of knowledge, and carry out projects to address human rights gaps in businesses.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Mwongera Mutiga,
Executive Director at Oxfam Kenya
