USA

Dear Mr. Secretary-General,

I am pleased to confirm that **The Caribbean Association for Oncology and Hematology** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

The Caribbean Association for Oncology and Hematology (CAOH) collaborates with private sector partners to strengthen cancer prevention, research, education, and health systems across the Caribbean. The organization engages pharmaceutical companies, diagnostic providers, technology firms, insurers, and other healthcare stakeholders to expand access to cancer screening, treatment, and continuing medical education for healthcare professionals. CAOH also works with private sector partners to support its Annual Scientific Conference, regional training programmes, and community health outreach initiatives, including cancer awareness and screening campaigns. Additionally, CAOH collaborates with health technology partners on digital health solutions that improve patient navigation and data-informed policy development. Through these partnerships, CAOH promotes responsible public-private collaboration that advances health equity, innovation, and sustainable healthcare systems.

SDG 3

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Marisa Nimrod,
Chief Executive Officer at The Caribbean Association for Oncology and Hematology

Digitally signed by Marisa Nimrod, Highest-Level Executive at The Caribbean Association for Oncology and Hematology.
