USA

Dear Mr. Secretary-General,

I am pleased to confirm that **Banking Association of Georgia** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

The Banking Association of Georgia undertakes multiple activities that engage the private sector and align with the mission of the UN Global Compact, particularly in promoting sustainable economic development, ethical business practices, and inclusive growth. As a non-commercial entity uniting all fourteen licensed commercial banks in Georgia, the Association serves as a central platform for collaboration among banks, international organizations, state institutions, and the public to advance shared sector priorities. Key activities include coordinating sector-wide projects and programs that improve financial literacy and cybersecurity awareness, organizing conferences, seminars, and forums that foster dialogue on innovation and sustainability, and facilitating professional development and training tailored to the financial sector.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Alexander Dzeladze,
President at Banking Association of Georgia
