Dear Mr. Secretary-General,

I am pleased to confirm that **Women's Chamber of Commerce and Industry Guyana** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

WCCIG regularly convenes training programmes, networking events, and policy dialogues that bring together entrepreneurs, corporations, and government agencies to address barriers facing women in business and to promote sustainable and ethical business practices. The Chamber also engages industry stakeholders to help women entrepreneurs understand regulatory frameworks and opportunities in emerging sectors such as energy, enabling them to participate more effectively in Guyana's rapidly expanding economy. Supporting these objectives is the We3A Programme, which equips women entrepreneurs with mentorship, training, and market access opportunities designed to strengthen their business sustainability and competitiveness.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Josephine Tapp,
President at Women's Chamber of Commerce and Industry Guyana
