Dear Mr. Secretary-General,

I am pleased to confirm that **eMission-X gGmbH** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

eMission-X partners with the private sector to turn sustainability commitments into measurable impact by acquiring land and restoring ecosystems through rewilding. Our ownership-based model delivers permanent carbon sequestration and biodiversity gains, providing a transparent alternative to conventional offsetting aligned with UN Global Compact Principles 7–9. By directly linking corporate contributions to real ecosystems, we ensure verifiable outcomes while strengthening accountability and minimizing greenwashing. We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Till Mertens,
Founder at eMission-X gGmbH
