H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary-General,

I am pleased to confirm that **Pessl Instruments GmbH** supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. **Pessl Instruments GmbH** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

We regret that we were unable to submit our Letter of Recommitment on time. The oversight occurred because our team was fully occupied with launching one of our largest agricultural initiatives, deploying 100,000 weather stations across Africa. This project not only creates employment opportunities for local communities but also advances sustainable agriculture by optimizing water and fuel usage, reducing resource consumption, and promoting environmental stewardship. We remain fully committed to implementing the Ten Principles of the UN Global Compact, supporting the Sustainable Development Goals, and submitting our annual Communication on Progress (COP). We kindly request reinstatement as a participant and confirm that the Letter of Recommitment will be submitted promptly, signed by our highest-level executive. Thank you for your understanding

and consideration. On behalf of CEO & Founder, Gottfried Pessl, Neža Jančič, marketing team lead, is signing on his behalf.

Sincerely yours,

Gottfried Pessl,
Chief Executive Officer at Pessl Instruments GmbH
