Dear Mr. Secretary-General,

I am pleased to confirm that **Yayasan Filantra** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

Filantra undertakes a range of ongoing and planned activities that engage with the private sector to advance the mission of the UN Global Compact. Through strategic partnerships with companies, Filantra supports the integration of the Ten Principles of the UN Global Compact particularly in the areas of human rights, labour standards, environmental responsibility, and anti-corruption into corporate social responsibility (CSR) and sustainability initiatives. These activities include the co-design and implementation of inclusive education programs for vulnerable children, community empowerment initiatives, disaster response and recovery programs, as well as capacity-building for local communities. Filantra also works closely with private sector partners to promote ethical business practices, social impact measurement, and long-term sustainability aligned with the Sustainable Development Goals (SDGs). :

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Asep Nurdin,
CEO at Yayasan Filantra
