H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm that **SUMMIT OF GLOBAL ENTERPRISES COM.** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

As an independent, non-profit institutional platform structured as a UK LBG, SGE facilitates and supervises private sector participation in sustainable development through three main pillars: 1. Enforcing Accountability: Through our Governance & Integration, we review all commercial partners involved in our programs, mandating that private sector entities structurally embed the UN Global Compact's Ten Principles into their operations and supply chains. 2. Steering Capital: SGE redirects private sector funding away from short-term interests and channels it into long-term public-interest projects, such as green infrastructure, education, and renewable energy, proving the long-term value of corporate sustainability. 3. Multi-Stakeholder Alignment: We host platforms that unite governments and commercial leaders to align business strategies with the UN 2030 Agenda.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Mahmoud EIMaddah,
CEO at SUMMIT OF GLOBAL ENTERPRISES COM.
