Dear Mr. Secretary-General,

I am pleased to confirm that **CYBER PEACE FOUNDATION** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

Recent Activities & UN Global Compact Participation: CyberPeace Foundation has strengthened global digital trust through initiatives such as the CyberPeace Index, launched at the UN Internet Governance Forum 2025, and partnerships with UNICEF, UNESCO, NCERT, ICANN, and UN Global Compact Network India. Its work includes child online safety, digital citizenship, policy advocacy, and contributions to India's Digital Personal Data Protection Act, 2023. Through industry dialogues, MSME cybersecurity training, threat intelligence, anti-fraud initiatives, digital-skilling programmes, and victim-support services, CPF advances the UN Global Compact's Human Rights and Anti-Corruption principles while promoting responsible technology use, digital inclusion, and cyber resilience. Ongoing efforts include expanding e-Kawach threat intelligence, CyberPeace Quick Reaction Team services, and the CyberPeace Index as a benchmarking tool for governments and businesses.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

VINEET KUMAR,
FOUNDER AND GLOBAL PRESIDENT at CYBER PEACE FOUNDATION
