Dear Mr. Secretary-General,

I am pleased to confirm that **JAIN (Deemed-to-be University)** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

JAIN (Deemed-to-be University) supports the private sector and advances the United Nations Global Compact through industry-academia partnerships, sustainability-focused education, research, innovation, and entrepreneurship. The University collaborates with businesses to develop industry-relevant curricula, undertake joint research, and enhance employability through internships and skill-development programmes. It promotes responsible leadership, ESG practices, corporate governance, business ethics, and sustainable development through academic programmes, executive education, conferences, and consultancy projects. Through incubation and innovation initiatives, JAIN University encourages entrepreneurship and socially responsible enterprises. Community outreach, environmental awareness, and inclusion programmes further support the UN Global Compact principles relating to human rights, labour, environment, and anti-corruption

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Dr Jitendra Kumar Mishra,
Vice Chancellor (I/C) and Registrar at JAIN (Deemed-to-be University)
