Dear Mr. Secretary-General,

I am pleased to confirm that **Minerals Council South Africa** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

The Minerals Council South Africa is deeply embedded in the corporate sustainability ecosystem, both locally and globally. Through its strategic alignment with the UN Global Compact, it champions responsible mining practices that uphold human rights, environmental stewardship, and ethical governance while driving economic transformation and resilience in South Africa. We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Mzila Mthenjane,
Chief Executive Officer at Minerals Council South Africa
