Dear Mr. Secretary-General,

I am pleased to confirm that **Universitas Nahdlatul Ulama Yogyakarta** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):
Recently, UNU Yogyakarta established collaboration with Playbook Technologies Pte. Ltd to strengthen the implementation of the Three Pillars of Higher Education (Tri Dharma Perguruan Tinggi). The agreements cover workshops, training sessions, and internship programs to help students develop skills relevant to the needs of the professional world. UNU Yogyakarta also established collaboration with the Indonesian Chambers of Commerce in the Special Region of Yogyakarta Province. The scope of partnership will include education, research, and community service, as well as student internship programs, workplace training, and competency development. In particular, through the Decarbonomics Center UNU Yogyakarta is preparing to carry out decarbonization efforts in the tourism industry under this collaboration.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization’s efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Fahmy Akbar Idries,
Rector at Universitas Nahdlatul Ulama Yogyakarta
