Dear Mr. Secretary-General,

I am pleased to confirm that **Kenya Community Development Foundation** supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):
KCDF engages businesses through partnerships that mobilise funding, employee expertise and volunteer support for sustainable development. With I&M Foundation, KCDF supports environmental conservation and youth-led green innovation through the Young Innovators Challenge. Its partnership with TotalEnergies has supported the equipping of Majoreni Secondary School's kitchen and dining facilities in Kwale County. Through Isuzu East Africa, KCDF supports mentorship, career guidance and life skills development for girls and boys, drawing on employee volunteers. Through the UN Global Compact, KCDF seeks to strengthen collaboration with businesses committed to responsible business practices, share learning and promote joint action on environmental sustainability, youth empowerment and community development, in line with the Ten Principles and the Sustainable Development Goals. We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Grace Maingi,
Executive Director at Kenya Community Development Foundation
